James Cleaver – Senior Manager of Recruitment

“We engaged Pierpoint through a trusted referral for our Latin American recruitment. With our company having no presence and little knowledge of the market, Pierpoint came in, quickly integrated with our LATAM leaders and delivered immediate impact.

The support was so good we have chosen to stay with them for an extended period and they have been incredibly successful. We went from 100% agency use to zero in 6 months, and have consistently filled every role with top candidates throughout Central and South America.

Bottom line, Miguel, Shanil and team consistently over-deliver on service and I will continue to use them as our key partner for Recruitment, Talent Sourcing and Contractor support.”
